

DISCORD COMMUNITY GUIDELINES

Effective: September 29, 2025

Last Updated: August 29, 2025

Discord enables you to build meaningful connections around the joy of playing games through voice, video and text features. Our Community Guidelines ensure everyone can express themselves and find community — but not at the expense of anyone else.

These Guidelines are incorporated into our [Terms of Service](#), and further explain what isn't allowed on Discord so that we can help create a positive environment for everyone.

Everyone on Discord must follow these rules, and they apply to all parts of our platform, including your content, behaviors, servers, and apps. To learn more about the requirements for developing a bot or other app on Discord, please refer to our [Discord Developer Terms of Service](#) and our [Discord Developer Policy](#).

If you plan to monetize your content, please review the additional rules outlined in our [Monetization Policy](#) and [Monetization Terms](#).

Our Trust & Safety team reviews reports by users, moderators, trusted third-party partners, or where required by law. When we proactively or reactively discover a violation of these Guidelines, we may take [a number of enforcement steps](#) based on the severity of the violation, including issuing warnings, removing content, temporarily suspending account access to Discord, or permanently removing violative accounts and servers, and even

reporting them to law enforcement. We may also consider relevant [off-platform behavior](#) when making assessments for violations of specific Community Guidelines.

If you come across an account, server, or content that appears to break these Guidelines, please [report it to us](#).

RESPECT EACH OTHER

1. Do not promote, coordinate, or engage in harassment. We do not allow any type of harassing behavior, including sexual harassment, ban or block evasion, or coordinating server joins for the purpose of harassing server members, also referred to as "server raiding." (See our [Bullying, Harassment, and Threats Policy Explainer](#) for more.)

2. Do not threaten to harm another individual or group of people. This includes direct, indirect, and suggestive threats. (See our [Bullying, Harassment, and Threats Policy Explainer](#) for more.)

3. Do not share or threaten to share the personally identifiable information (PII) of an individual without consent. This includes providing services that facilitate doxxing, such as buying or selling doxxes or compiling doxxes for others. (See our [Doxxing Policy Explainer](#) for more.)

4. Do not use hate speech or engage in other hateful conduct. This includes the use of hate symbols, imagery, and claims that deny the history of mass human atrocities.

We consider **hate speech** to be any form of expression that either attacks other people or promotes hatred or violence against them based on their protected characteristics. (See our [Hateful Conduct Policy Explainer](#) for more.)

5. Do not organize, promote, or support violent extremism. This also includes coordinating violent acts; glorifying or promoting violence or the perpetrators of violent acts; and promoting conspiracy theories that could encourage or incite violence against others. (See our [Violent Extremism](#) and [Violence and Graphic Content Policy Explainers](#) for more.)

6. Do not create, post, solicit, share, or make attempts to distribute content on Discord that depicts, promotes, or attempts to normalize child sexual abuse. This includes manipulated, non-manipulated, or synthetic (artificial intelligence-generated) media involving real, fictional, and/or anthropomorphized children.

This also includes animation, drawing, text, and technical commands or prompts to create media depicting child sexual abuse or child sexualization.

We report child sexual abuse material (CSAM) and grooming to the [National Center for Missing & Exploited Children](#), which may subsequently work with local law enforcement. (See our [Teen and Child Safety Policy Explainer](#) for more.)

7. If you are under the age of 18, you may not engage in sexual conduct or any other conduct using Discord that puts your online or physical safety at risk. This includes consensual sexual interactions between you and other teens of a similar age, as well as any encouragement or coordination of behavior that may be harmful for you or others, such as vigilantism.

We want teens to be able to express themselves as authentically as possible on Discord. However, given the risks associated with online dating, we will remove spaces that encourage or facilitate dating between teens. (See our [Teen and Child Safety Policy Explainer](#) and our [Teen Safety Assist](#) function for more.)

8. Do not engage in any sexual conduct with anyone under the age of 18. This includes soliciting, sharing, or exchanging sexual content.

We report child sexual abuse material (CSAM) and grooming to the [National Center for Missing & Exploited Children](#), which may subsequently work with local law enforcement. (See our [Teen and Child Safety Policy Explainer](#) for more.)

9. Do not make sexually explicit content available to anyone under the age of 18.

Discord users must be aged 18 or older to view, gain access to, or participate in adult sexual content on Discord.

Server owners must apply an age-restricted label to any channels that contain sexually explicit content involving adults or content involving adults that is shared solely for the purposes of sexual gratification.

Users may not post sexually explicit content in any space that cannot be age-restricted, including in avatars, custom statuses or bios, server banners, server icons, invite splashes, emoji, and stickers. (See our [Sexual Content Policy Explainer](#) for more.)

10. Do not share, distribute, or create sexually explicit or sexually suggestive content of other people over the age of 18 without the subject's explicit consent. This includes the non-consensual distribution of intimate media that was created either with or without an individual's consent. (See our [Non-Consensual Adult Intimate Media Policy Explainer](#) for more.)

11. Do not share content that glorifies, promotes, or normalizes suicide or other acts of physical self-harm. This includes content that encourages others to cut, burn, or starve themselves, as well as content that normalizes eating disorders, such as anorexia and bulimia. Self-harm acts or threats used as a form of emotional manipulation or coercion are also prohibited. (See our [Suicide and Self-Harm Policy Explainer](#) for more.)

12. Do not upload or share any material depicting violence, gore, or animal cruelty, especially with the intention to harass or shock others. (See our [Violence and Graphic Content Policy Explainer](#) for more.)

RESPECT DISCORD

13. Do not send unsolicited bulk messages (or spam) to others. Also, do not facilitate this activity, such as by selling spambots, server "raid" tools, account-creation tools, token generators, CAPTCHA-solving services, or other spam tools. (See our [Platform Manipulation Policy Explainer](#) for more.)

14. Do not use self-bots or user-bots. Each account must be associated with a human, not a bot. (See our [Platform Manipulation Policy Explainer](#) for more.)

15. Do not engage with our service in an inauthentic way. This includes artificially inflating server membership, manipulating engagement metrics, and selling artificial engagement services. (See our [Platform Manipulation Policy Explainer](#) for more.)

16. Do not sell or purchase Discord assets, including accounts, usernames, servers, server permissions, or custom server invite links. (See our [Platform Manipulation Policy Explainer](#) for more.)

17. Do not share false or misleading information (otherwise known as misinformation).

Content that is false, misleading, and can lead to significant risk of physical or societal harm may not be shared on Discord. We may remove content if we reasonably believe its spread could result in damage to physical infrastructure, injury of others, obstruction of participation in civic processes, or the endangerment of public health. (See our [Misinformation Policy Explainer](#) for more.)

18. Do not misrepresent your identity on Discord in a deceptive or harmful way. This includes creating fake profiles and attempts to impersonate an individual, group, or organization. (See our [Identity and Authenticity Policy Explainer](#) for more.)

19. Do not evade permanent Discord-level enforcement actions. This includes creating new or using existing accounts or communities after being removed for violating our platform rules. (See our [Identity and Authenticity Policy Explainer](#) for more.)

20. Do not engage in activities that could damage or compromise the security of an account, network, or system. This includes using deceptive techniques to trick others into revealing sensitive information (phishing), using malicious software (malware), and flooding a target with traffic in order to make a resource unavailable (denial-of-service attacks). (See our [Deceptive Practices Policy Explainer](#) for more.)

21. Do not use or attempt to use Discord to promote, coordinate, or execute financial scams. A financial scam is any intentionally deceptive act taken with the intent to receive an illegal, unethical, or otherwise dishonest gain. (See our [Deceptive Practices Policy Explainer](#) for more.)

22. Do not engage in activities that fraudulently generate a profit at the expense of others. This includes facilitating, providing instructions for, and participating in fraud. We do not allow coordinated efforts to defraud businesses, price gouging, forgery, money laundering, counterfeit goods, or tools that facilitate illegal behavior. (See our [Deceptive Practices Policy Explainer](#) for more.)

23. Do not submit false, misleading, or abusive reports or requests to Discord's support teams. A report or request will be considered false or misleading if it contains demonstrably untrue information submitted with the intent to manipulate staff into taking a desired action. (See our [Discord Support Abuse Policy Explainer](#) for more.)

FOLLOW APPLICABLE LAWS

As described in our [Terms of Service](#), you must comply with all applicable laws, rules, and regulations. This includes:

24. Do not share content that violates anyone's intellectual property or other rights. This includes sharing or selling game cheats or hacks. (See our [Unauthorized Copyright Access Policy](#) for more.)

For more information on how Discord handles copyright complaints, please view our [Copyright & Intellectual Property Policy](#).

25. Do not organize, promote, or engage in the selling or facilitation of sales of regulated or potentially dangerous goods. Regulated goods have laws in place that restrict the purchase, sale, trade, or ownership of the goods. Dangerous goods have a reasonable potential to cause real-world, physical harm to individuals. (See our [Dangerous and Regulated Goods Policy Explainer](#) for more.)

26. Do not coordinate or participate in illegal gambling. Users are responsible for complying with applicable gambling laws and regulation. (See our [Gambling Policy Explainer](#) for more.)

27. Do not organize, promote, or engage in any illegal activity that harms the dignity, safety, or wellbeing of another person. This includes but is not limited to human trafficking and sexual solicitation. (See our [Human Trafficking](#) and [Sexual Solicitation Policy Explainers](#) for more.)

If you see any content or activity that violates these Guidelines, our [Terms of Service](#), or any of our other policies, please report it to us. You can learn more on how to report to us [here](#).

However, please note that we strongly discourage and [may take action against vigilantism](#), as this behavior can put individuals in harm's way and can also interfere with our investigations and ability to report to law enforcement.

These Guidelines will continue to evolve over time. This means we may take action against an account, server, or content that violates the spirit of these Guidelines when we encounter a new threat or harm that is not explicitly covered in the current version.

We will always make our best effort to notify you when we update these Guidelines, but it is up to you to follow them and to use Discord responsibly: Keep Discord safe and help us ensure it remains a great place to build friendships around the joy of playing games. Thanks for doing your part.
